“Wild Rock is a wild ride, with sand and gravel mounds, boulder-strewn streams and staggering vistas. This course bares serious teeth.”

“Wild Rock Golf Club is an eye-opening experience not soon to be forgotten...Wild Rock stimulates the senses, challenges golfers of all abilities and provides Kodak moments on almost every tee...The elevation changes are dramatic and the vistas from some tees are jaw-dropping...Of the 78 courses I have reviewed

since 1999, Wild Rock tied for the second-highest point total with the Links Course at Lawsonia and University Ridge. Only Whistling Straits graded higher.”

***Gary D’Amato, Milwaukee Journal Sentinel***

“On the way up to the sixth tee at Wild Rock Golf Club, it’s tempting to turn around for a sneak peek at one of the most beautiful views in Wisconsin golf.”

***Bill Clooney, Wisconsin State Journal***

Wild Rock, part of the massive Wilderness Territory complex, should be a must-stop destination for not only tourists but also for the most die-hard golfers... Five “cool” things about Wild Rock: 1. square tee boxes; 2. Rugged-looking bunkers in the middle of fairways defining tee shots and approach shots; 3. a 30-mile view on a clear day from the elevated sixth tee; 4. Three styles of golf course in one; 5. A real chance to shoot a great score on a great course.

***Matt Tevsch, Midwest Golfing Magazine***

Wild Rock is a rousing, wonderful ride through the Wisconsin Dells. ... The back nine is, quite frankly, one gorgeous shot after another - so many wonderful holes, it may be hard to keep track of them all....the course is a must-play for any golfer in the area on vacation.
